These 20 easy make money online tips show you how to make money online for free! Here's the secrets to quick cash easily.

1- Write Articles. Search the [Google Keyword Tool](#) for keywords that you want to write an article about and find ones that have over 300 global monthly searches. Save all the keywords you would like to write posts about in a file.

Then go to Google and type allintitle:KEYWORD. All of the keywords that have less than 500 search results will be easy to rank for. Write an article with the resource box pointing to an affiliate link or back to your website

2- MLM. Multi level marketing has a bad name but if you want to go out and connect with people it can make you some decent money. MLM Leads System Pro is a pretty good MLM that is geared towards making money online.

3- Take Surveys. Taking surveys online is a good way to make some easy cash. All you need to do is fill out some information and start cashing in.

4- Become A Freelancer. Go to websites like [Elance.com](#) and look for some work. You can usually find some easy jobs like writing articles or anything like that just about anyone can do. Usually the pay is fairly decent as well.

5 – Make A Website. You can get a website for pretty cheap (recommended) or go to a free service like [Blogger](#) and set up a website. You want to find keywords the same as for writing articles but this time you want to add the proper on page search engine optimization so your pages will get picked up in the search engines.

Write a post with the keyword in the title, meta keywords, meta description, in the title of the page, withing the first 90 characters of the page, with 1%-2% keyword on page density and the keyword in a text link. That will give you the proper on page SEO.

Then do that a lot. Make a lot of SEO'd pages (as described above) and watch the traffic come. Then you can promote affiliate offers or even your own products on the website. That is how you can monetize it.

There is a lot more to do like using onlywire to bookmark each post, getting a good ping list and submitting your RSS feeds. But that is a good start. (Hint a good tip is to use a free service like [All Scoop](#) to submit your RSS feed)

6 – Forum Marketing. Find a form in a desperate market. Make sure that the forum allows advertising in the signatures. Then what you want to do is put an affiliate link in your signature with an enticing reason to click through like this "Want To Stop Suffering With Acne For Good? Click Here And Discover How To Get Rid Of Acne Once And For All."

Comment on 10ish posts a day with helpful and relevant content and create 1-2 posts a day on the forum. Try look at what people are talking about and create somewhat controversial threads. These can really take off and if you response to most if not all comments the post count will get high and attract attention. Often, people will click your affiliate link in the signature and you can make quite a bit of money with this.

As a side note you could also link back to your website with the forum signature and help increase off page SEO.

7 – Yahoo Answers. Answer 20 questions a day with 4-6 pointing through to your website that offers some sort of related information and also recommends a product. If you don't want to set up a website you can do a domain level redirect to an affiliate link and use that.

The key is to not get labeled as a spammer and to provide quality information that actually helps people. You also want to vary the sites you link to in the resource box. You can create a few identical blogger blogs and just rotate through them.

8 – Run A WSO. Create a product and sell it on the [warrior forums](#). You could make an audio of you giving away some great information about a hot market and sell it with private label rights on the warrior forums.

It is hard *not* to make money on the warrior forums.

9 – Use PPC. [Goggle Adwords](#) allows you to advertise on Google. You can pay for ads and refer traffic to your money making affiliate link or to your own product or service.

As a site note if you don't want to pay for traffic you can put up some free ads on U.S. Free Ads or Craig's List as an alternative.

10 – Tweet Answers. Use twitter's search feature and look for people who are looking for solutions to problems then match the solution to a product. For example...

If someone said "How do I get rid of my acne?" You say "@Reply I am so happy I got rid of my acne: take a look at this ([http://affiliate link](#)) and see how clear THEIR face is."

Do you see how you refer them to the product without being salesy? You want to be helpful and not "Hey this product is super go buy it."

11 – Build A Mailing List. Building a mailing list is one of the best among these 20 easy make money online tips. Throw up a web page asking for a name and an email in exchange for a free download.

Follow up with your subscribers with relevant and valuable information that helps them solve their problems. Also, refer them to related products and services that will help them even further through an affiliate link or refer them to your products.

12 – Sell Your Crap On Ebay. Clean our the garage and basement! This is an easy way to make some quick cash. Just sell the stuff you don't use or want any more.

You can also go to whole salers, trade shows and garage sales to find things to sell. Sometimes you can even buy things on ebay and resell them on ebay for a profit.

13 – Make A Facebook Group or Page. Create a facebook page and invite your friends to it. Also add friends that are interested in your topic by searching relevant groups and invite them to your page. Then update your page with relevant content that helps them and same as the mailing list refer them to products that make you money.

Always provide value first. Gain trust and respect then help your fans more with good products.

14 – You tube Cash. Make videos and submit them to You tube. (or you can use a free service like [Tube Mongul](#) to submit to more sites). Optimize the videos for SEO by using the same criteria as stated for articles. Find a good keyword that gets some traffic and make a video about it. The first words in your description should be a link to your website or affiliate link.

This is also good for SEO as you can build high quality backlinks to your websites from these sites. To super charge this book mark all your videos with onlywire and submit your profile's RSS feeds.

15 – Distribute Documents. Use the same keyword and title requirements as for writing articles. You could even take your articles if you have them and distribute them to document sharing sites. You will need to create them as a PDF file or powerpoint file before you do this.

Inside the document point back to your website or blog for backlinks OR point to an affiliate link. Here are some good document sharing sites.

16 – Sell An Information Product. Without a doubt the best way to make money online is to sell your own product.

17 – License Marketing Ideas. Did you know that you can license your marketing ideas to others? Every business does something well so allow others to use your ideas for a fee. For example, there was a car wash owner to had an order flow that made it %300 more likely for people to buy their upsell and get the car wax.

So what this business owner did was contact nationwide car washes and licensing his sales technique out to them for \$100 a month. He got around 100 people to use his technique and easily made an extra \$10,000 a month. You can do this with a wide variety of ideas.

18 – Become A Joint Venture Broker. By connecting two business you can act as a middle man and take a cut of the profits. Let's say there are people who need copy writers. You can connect with them copy writers for a flat fee or a percentage of the service. Not only can you do this with goods and services but you can also connect related companies with one another.

Another example is finding a company with a massive huge mailing list and connecting them with a company who wants to sell their related product for 20% of the increased profits. Connect A with B and make some money!

19 -Write Press Releases. Write press releases about your website, goods and services or simply refer to an affiliated product. Make sure to find a good keyword for the title as described above.

20- Build A Real Online Business. This is similar to create your own product but more in-depth. Not only do you create your own product but you create a full line of products that you sell to a growing customer base.

The truth is there are so many of these “20 Easy Make Money Online” type things that it can be hard to choose one and do it right. Truthfully if you want to really make money online you want to simply create a line of information products and sell them to a thirsty crowd.

The barrier to entry now a days in the internet world is lower then ever. Anyone with a computer can create a company that pays them 24 hours a day 7 days a week. And when you sell digital goods you have NO overhead. You keep 100% profits!
